COURSE OUTLINE 2025-2026 | Prior-year summary of instruction

Coalinga High School | Instructor: Manuel Chagoyan

Advanced capstone course connecting Terminal and Git workflows, portfolio development, flexbox layouts, and AI tools, with the portfolio and career documents as culminating work and Career Skills Challenge participation as an additional opportunity.

Prior-year summary: the original week-by-week assignment list for 2025-2026 is grouped here into units. Dates are approximate, units overlap, and keyboarding and professional habits recur throughout the year.

Units & sample assignments	Anchor & CA CTE standards	Student learning objectives
01 Developer workspace & professional routines **Weeks 1-8 | Aug-Oct, ongoing** Classmate interviews, artificial intelligence activity, social contract and poster, online publishing/AI permission form; VS Code, GitHub account, and Photoshop setup; Typing.com lessons and certificates; MyCareerTech lessons.	**Anchor**: 4.0, 6.0, 7.0 **Pathway**: ICT C4.3	Set up and maintain an organized development workspace; follow publishing and responsible-use agreements; build keyboarding fluency and professional work habits.
02 Terminal & file operations **Weeks 3-10 | Aug-Oct** The Terminal: folder structures, notes, image and network folders; Astro website folder structure; Git, NVM, and Node installation; Vim on your own; VS Code terminal color customizations.	**Anchor**: 4.0, 5.0 **Pathway**: ICT C4.3	Navigate and manipulate actual files from Terminal; interpret paths; build project folder structures with commands.
03 Photoshop & portfolio foundations **Weeks 4-9 | Sep-Oct** Social contract poster; masking; desktop wallpaper; portfolio logo; web portfolio days 1-5; portfolio blockquote, paragraphs, and semester 1 links.	**Anchor**: 2.0, 4.0, 11.0 **Pathway**: ICT C3.3, C6.3, C6.5, C7.5; AME A8.4	Build a responsive portfolio; integrate optimized graphics; check readability and content quality.
04 Git, GitHub, Netlify & documentation **Weeks 12-17 | Oct-Dec** Git basics and notes; naming conventions; Git and GitHub process; repositories 001 and 002 with Netlify deployments; portfolio website URL; Markdown and class notes; Edpuzzle lessons on Terminal and Git.	**Anchor**: 4.0, 5.0, 9.0 **Pathway**: ICT C4.11, C5.4, C7.5	Record meaningful checkpoints; synchronize local and remote work; publish a site from GitHub to Netlify; document project purpose and use.

COURSE OUTLINE 2025-2026 | Prior-year summary of instruction

WAD 2025-2026 units 08-08

Units & sample assignments	Anchor & CA CTE standards	Student learning objectives
08 Portfolio, mock-up project & optional challenges **Weeks 27-38 | Mar-Jun** Collect certificates and work samples; hero image; Google Fonts; AI-assisted mock-up website for a local business; Lovable game (extra credit); work samples and certificate links; final portfolio submission; Career Skills Challenge (competing students only).	**Anchor**: 2.0, 5.0, 9.0, 11.0 **Pathway**: ICT C2.3, C3.3, C5.4, C7.5	Complete and publish a professional portfolio; create an AI-assisted website mock-up for a local business; participate in optional game development and competition opportunities.

Standards key & alignment. Anchor numbers refer to broad California CTE Knowledge and Performance Anchor Standards. ICT C = Software and Systems Development; AME A = Design, Visual, and Media Arts. Listed standards identify relevant instructional connections, including partial coverage; they do not certify mastery of every component.
